GUILHERME ZALLA FONTENELE

SOFTWARE ENGINEER | FULL STACK DEVELOPER

PROFESSIONAL SUMMARY

Full Stack Developer with over five years of experience in web applications, payment systems and financial integrations. Experienced with Laravel/PHP, C#/.NET and Node.js/TypeScript on the back end, React and Vue.js on the front end, REST APIs and microservices.

PROFESSIONAL EXPERIENCE

Full Stack Developer — Jun 2021 – Mar 2026

Paynet

- Developed and maintained back-end applications and services using C#/.NET, Laravel/PHP and Node.js/TypeScript, building REST APIs and business logic for financial systems.
- Implemented CERC receivables registration and reconciliation features in C#, supporting financial transaction processing.
- Integrated Bcodex and Konduto and contributed, as part of a team, to Pix, PicPay and PagBank integrations, including APIs, webhooks and error handling.
- Worked on financial transaction flows involving refunds, cancellations, reprocessing and retry mechanisms.
- Built Vue.js and React dashboards for transaction monitoring, connected to APIs and microservices using JWT/OAuth 2.0.
- Implemented Redis jobs and queues for asynchronous notifications, status updates and reports.
- Fixed bugs, refactored code, optimized SQL queries and improved performance; created and modified tables, migrations and relationships.
- Wrote unit and integration tests; participated in code reviews, architecture discussions, deployments and CI/CD using Docker and AWS.

Full Stack Developer (Contract Project) — Jan 2024 – Dec 2025

4Clubes | São Paulo, Brazil

- Implemented Pix QR Code payments and mobile-responsive interfaces for a subscription platform in a four-person team.
- Helped define architecture and business rules for recurring billing and event payments.
- Developed a Laravel back end and Node.js microservice with JWT/OAuth 2.0, unit tests and deployment to AWS.

Full Stack Developer — Jan 2021 – Jun 2021

World Consultoria

- Built payment, parking management and automotive administration systems using Laravel, TypeScript and React.
- Gathered requirements with clients and worked with MySQL/NoSQL, RabbitMQ, JWT/OAuth 2.0, Git and AWS in a Scrum team.

IT Support — Feb 2019 – Dec 2019

Liderança Cobranças Inteligentes

- Handled support tickets and documented procedures and solutions for recurring incidents.
- Worked with SQL Server in production, maintaining tables, optimizing queries and validating data.

EDUCATION

Bachelor's Degree in Information Systems — Feb 2019 – Dec 2022

Universidade Anhembi Morumbi
